## Unlocking Success Together: CSAAE DSEP Hackathon Winners Shine in OKOBI Series!

In the exhilarating aftermath of the CSAAE DSEP Hackathon triumph, the spotlight turned to some outstanding members of the top five winning teams as they featured in the January edition of OKOBI's One Kindred, One Business Initiative. These tech prodigies share insights on exploring opportunities through group-owned businesses.

### Some of the areas discussed includes:

**Dynamic Collaboration:** they shared how they harnessed the power of teamwork to clinch victory in the prestigious hackathon. Their experiences illuminate the importance of unity and collaboration in achieving common goals.

**Opportunities :** The diverse opportunities awaiting those who embark on the journey of group-owned businesses. From shared resources to collective decision-making, was discussed as these entrepreneurs delve into the advantages that come with fostering a sense of community within their ventures.

**Inspirational Narratives:** Firsthand stories of resilience, creativity, and triumph was shared as our featured participants recount the challenges they overcame during the CSAAE DSEP Hackathon. Their narratives promise to inspire budding entrepreneurs and tech enthusiasts alike.

## **Embarking on a Transformative Journey: CSAAE's DSEP 2024 Resumption Unveils Innovative Learning Paths!**

In a momentous road map meeting, CSAAE brought together its dedicated DSEP tutors to reveal the eagerly anticipated resumption date for the 2024 classes—January 30th, 2024. What makes this academic year truly extraordinary is the introduction of four dynamic learning pathways, designed

to break barriers and cater to the diverse needs of our ambitious youth community.

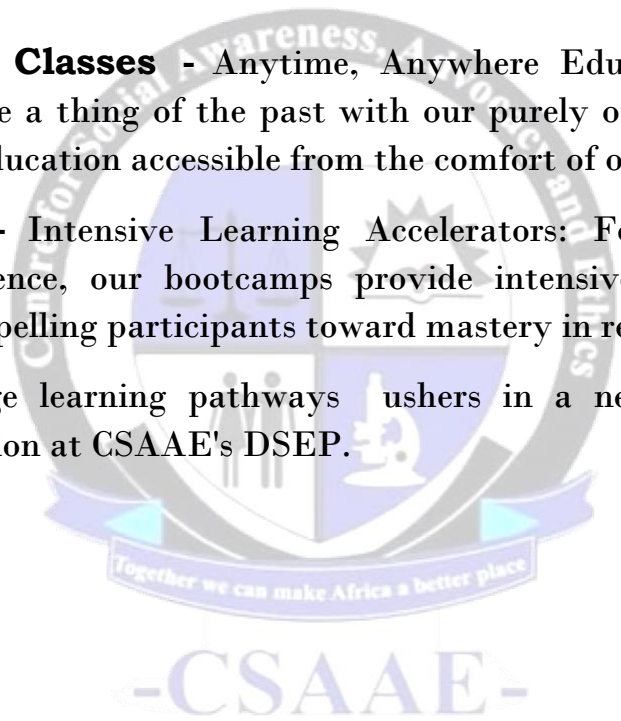

**Hybrid Classes** - A Fusion of Excellence: Blending the best of both worlds, our hybrid classes offer a unique combination of three days in person and two days online, ensuring flexibility without compromising the depth of engagement.

**Self-Paced Learning** - Empowerment at Your Fingertips: Tailored for those with bustling schedules, the self-paced learning option empowers students to dictate the rhythm of their educational journey, breaking free from traditional time constraints.

**Purely Online Classes** - Anytime, Anywhere Education: Geographical boundaries become a thing of the past with our purely online classes, opening doors to quality education accessible from the comfort of one's own space.

**BOOTCAMPS** - Intensive Learning Accelerators: For those seeking an immersive experience, our bootcamps provide intensive, hands-on learning opportunities, propelling participants toward mastery in record time.

These cutting-edge learning pathways ushers in a new era of accessible, innovative education at CSAAE's DSEP.

## **Empowering Tomorrow's Innovators: CSAAE Champions Entrepreneurial Success for DSEP Hackathon Winners!**

In a strategic move towards fostering entrepreneurial brilliance, CSAAE orchestrated an impactful Sensitization, Capacity Building, and Strengthening Workshop for the triumphant top five teams of the 2023 DSEP Hackathon. The workshop served as a beacon, guiding these bright minds through the crucial steps of transforming their ideas into sustainable businesses.

### **Highlights of the workshop includes:**

**Expert Insights:** Led by the esteemed CSAAE Executive Director, Rev Fr Dr Godswill Agbagwa, and supported by seasoned resource persons, the workshop unfolded a tapestry of wisdom. Conversations delved into the imperative of business registration and the legal intricacies essential for startup success.

**All-Inclusive Business Start-up Course:** CSAAE didn't stop at advice; they championed action! The winning teams were generously awarded a three-month, all-expense-paid business start-up course, a transformative journey that promises to equip them with the skills and knowledge needed for entrepreneurial triumph.

**Seed Funding for Dreams:** As the training concludes, a remarkable finale awaits. CSAAE will provide start-up funds, injecting financial vigor into the dreams of these emerging entrepreneurs. This investment echoes CSAAE's commitment to not just inspiring innovation but also fueling its tangible manifestation.

CSAAE continues to be the catalyst for change, propelling these visionaries toward a future where their ideas shape industries and transform communities.

## Forging Futures: CSAAE and Imo State Data Management Center Unite for Impactful Partnership!

In a groundbreaking move towards empowering graduates, CSAAE took a significant step by initiating a collaborative discussion with the Director General of Imo State Data Management Center. The agenda was clear – to explore a partnership that not only enriches the professional landscape but also opens doors of opportunity for the talented DSEP Data Entry and Data Analytics graduates.

CSAAE which executive CSAAE, Godswill Chief Officer Ekwonu programs Good luck engaged

with Mr. Director

Imo DATA Management Center.

delegates includes the Director of Rev Fr Dr Agbagwa, the Operating Ms Francesca and the manager Mr Anuforo, in fruitful discussions Terrence, the General of

The conversation centered on creating a synergy that bridges the gap between education and employment, providing a direct pathway for DSEP graduates to contribute their skills to the burgeoning field of data management.

The outcome was nothing short of extraordinary! Mr. Terrence, in a show of commitment to nurturing local talent, pledged to employ a remarkable 30 DSEP Data Entry and Data Analytics graduates. This promise not only validates the caliber of CSAAE's training but also serves as a testament to the impactful partnerships that can flourish when education meets industry.

As CSAAE continues to shape futures and foster collaboration, the echoes of this partnership resonate as a beacon of hope and opportunity for the aspiring data professionals of tomorrow.

### **Navigating Success: CSAAE Illuminates Opportunity Pathways for Top DSEP Cyber Security Graduates!**

In a strategic move to foster the growth of cybersecurity talent, CSAAE orchestrated a dynamic Opportunity and Mentorship Pathways Discussion with its top-performing DSEP Cyber Security graduates. This insightful dialogue not only illuminated avenues for professional advancement but also opened doors to mentorship, ensuring that these graduates embark on a trajectory of continued success.

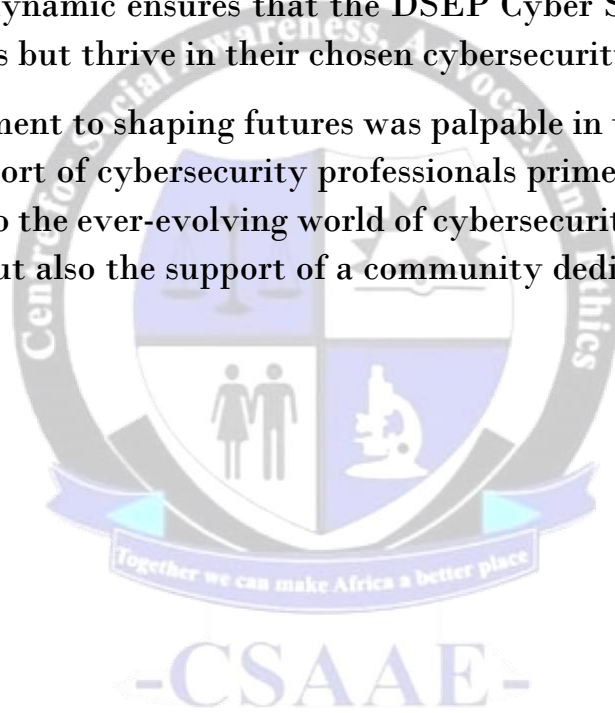

**Unlocking Career Opportunities:** The discussion, led by CSAAE mentors and industry experts, provided a roadmap for the graduates to navigate the dynamic landscape of cybersecurity. Insightful discussions on emerging trends, industry demands, and potential career pathways equipped these graduates with the knowledge needed to make informed decisions in their professional journeys.

Beyond job opportunities, CSAAE emphasized the importance of mentorship. Seasoned professionals shared their experiences, offering guidance and insights that transcend textbooks.

This mentorship dynamic ensures that the DSEP Cyber Security graduates not only step into roles but thrive in their chosen cybersecurity careers.

CSAAE's commitment to shaping futures was palpable in this discussion, setting the stage for a cohort of cybersecurity professionals primed for success. As these graduates step into the ever-evolving world of cybersecurity, they carry not only their knowledge but also the support of a community dedicated to their ongoing growth.

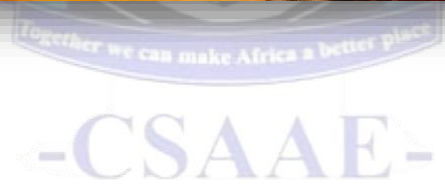

## **Cultivating Innovation: CSAAE DSEP Graduates Dive into the World of Sustainable Seafood and Meat!**

In a culinary exploration that goes beyond the ordinary, CSAAE orchestrated a thought-provoking session for its DSEP graduates, delving into the realm of cultivated seafood and meat. Facilitated by the esteemed Mr. James Elewachi from the University of Massachusetts Boston, this immersive discussion unfolded as a window into the future of sustainable food production.

From Concept to Plate: Mr. Elewachi's expertise guided graduates through the intricate landscape of cultivated seafood and meat, shedding light on the innovative processes that redefine our relationship with food. From lab-grown alternatives to environmentally conscious practices, the discussion sparked a culinary revolution in the minds of these forward-thinking individuals.

As the world seeks sustainable solutions, CSAAE's initiative fosters a deep understanding of how cultivated seafood and meat can play a pivotal role in shaping a greener, more conscientious future. Graduates left not only with insights into cutting-edge food technologies but also with a sense of responsibility to contribute to a more sustainable world.

CSAAE continues to be a catalyst for change, exposing its graduates to the forefront of innovation.

## **Embarking on Excellence: CSAAE Launches DSEP Cohort 4, January/February Batch!**

With boundless enthusiasm and a commitment to shaping the leaders of tomorrow, CSAAE proudly kicks off the much-anticipated DSEP Cohort 4, January/February Batch. The halls are buzzing with the energy of eager learners, ready to immerse themselves in a transformative educational journey.

As the new cohort assembles, diverse dreams and aspirations converge, creating a symphony of ambition and potential. CSAAE, known for its dedication to empowerment, welcomes a fresh wave of talent, poised to redefine the narrative of leadership and innovation.

The curriculum is designed to not only impart knowledge but also instill a global perspective, preparing these emerging leaders to tackle local challenges with a

global mindset. CSAAE's commitment to holistic development ensures that each student becomes a catalyst for positive change in their community.

CSAAE's approach extends beyond traditional classrooms, embracing innovative teaching methods, mentorship programs, and real-world experiences. Cohort 4, January/February Batch, marks the beginning of a journey where education transcends boundaries, and the pursuit of excellence knows no limits.

As CSAAE ignites the spark of knowledge and ambition in Cohort 4, January/February Batch, we eagerly anticipate the impact these future leaders will make on the world stage.
